About the IEPA:

The International Exit Planning Association (IEPA) is a practitioner development organization that offers proven resources, topical education, and peer mentorship to exit planning practitioners all over the world. Our founder, John Leonetti, CBEC[®], managing partner at Beacon Hill Equity Solutions, head faculty at IEPA, author of *Exiting Your Business, Protecting Your Wealth: A Strategic Guide for Owners and Their Advisors*, and creator of the Six-Step Exit Planning Process, has one major mission: help business owners solve problems.

Our programs and services are uniquely positioned to share best practices from active exit planning firms and practitioners from across the industry while focusing on helping advisors who want to go beyond education and implement exit planning into their firms in a way that will transform their business owner clients' lives.

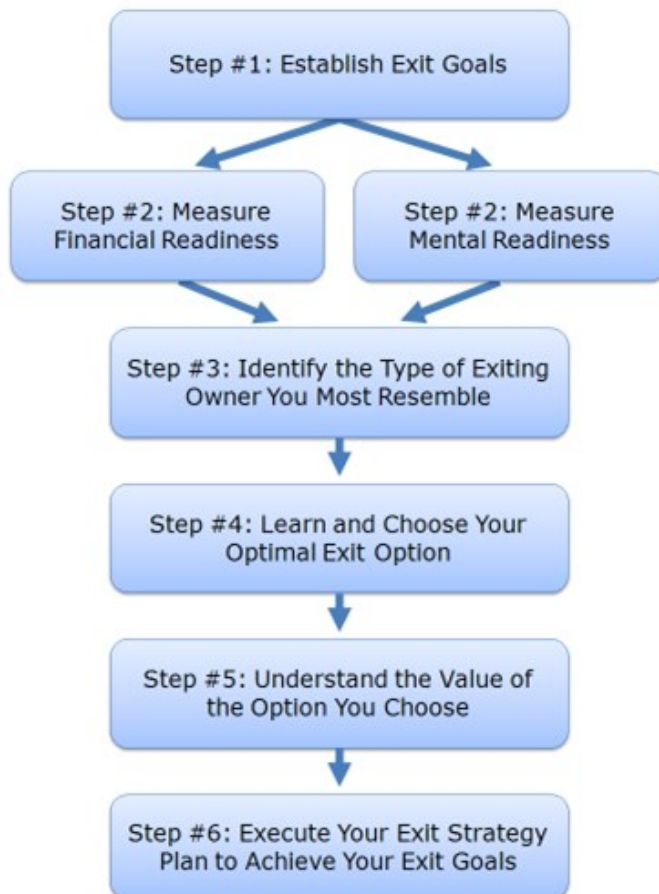

Learning for the sake of learning is good; however, if you are interested in integrating what you've learned to reach new heights as a professional, you have found the right community. We share what we know in abundance while supporting you in implementation through study groups, mentorship, and ongoing cohort peer groups who are winning exit planning engagements and driving best practices industrywide.

About the designation:

CERTIFIED BUSINESS EXIT CONSULTANT[®] (CBEC[®]) DESIGNATION PROGRAM

The CBEC[®] training is designed to both educate and put advisors in the business of exit planning for privately held business owners. This program utilizes a proprietary, six-step exit planning process that is applicable to any financial consultant advising business owners. Released in 2008, this six-step process has stood the test of time, resulting in simplifying a complex process to help advisors more consistently and more effectively communicate and deliver solutions to owners on this critical topic.

The Six-Step Process®

Exit planning is a simple concept: it is the idea that a business owner, a few years before they want to sell or transfer their business to someone else, will do some planning around this critically important event. Owners should know and make plans around issues such as:

- The range of values of their business
- Getting the conversation started and measuring the owner's readiness for an exit
- Who would likely want to own their business
- When they might expect to get paid for the business and whether that is enough money
- Critical issues and strategies to achieve a successful exit

Many of these owners are your existing and valuable customers who are looking to you, as their primary advisor, to assist them with this important need.

As a professional advisor, you are perfectly positioned to deliver these planning-based solutions into your existing and prospective business owner relationships, yielding you a profitable and enjoyable stream of income for your own business or practice.

Adding exit planning to your practice also gives you greater visibility, access to, and standing with a growing network of other professional advisors who are active in the business owner exit planning space. Many of these advisors have owner relationships and want to partner with you to help service the owner’s comprehensive needs in the exit planning process.

THE CBEC® DIFFERENCE: “EXIT DOERS VS. EXIT TALKERS”

Advisors choose to achieve the CBEC® designation when they are ready to go beyond education. Due to the experience requirements to hold this standard, those who earn CBEC® get to sit at a table among their exit planning practitioner peers (with deep experience, active projects, and growth mindset) and collaborate with like-minded people who are passionate about solving owner problems as they approach a business exit that creates and monetizes their illiquid business wealth.

It takes more than knowledge to earn the Certified Business Exit Consultant®(CBEC®) designation. It is reserved for (and exclusively offered to) those who do exit planning work for business owners versus those who only seek to understand exit planning conceptually. The majority of CBEC® designees have 10+ years of proven experience helping business owners, passed the proctored exam, and submitted a written exit plan within one year of completing the coursework.

The **2024 Exit Planners Survey** provided valuable insights into current trends, challenges, and opportunities in the Exit Planning marketplace. The data collected in this annual survey offers a clear picture of industry benchmarks and best practices.

Here are a few of the results from the survey related to our CBEC® designation:

- Question 13: *How do you incorporate exit planning into your practice?*

| Incorporating Exit Planning | CEPA | CEXP | CBEC | NONE |
|---|------|------|------|------|
| An introduction for other advisory work | 44% | 35% | 19% | 26% |
| A lead-in to value enhancement consulting | 29% | 30% | 30% | 31% |
| Preparation for taking a business to market | 10% | 8% | 26% | 24% |
| It is my entire practice | 6% | 14% | 15% | 8% |
| It is separate from my other work | 11% | 14% | 11% | 11% |

- Question 25: *What do you expect to earn from exit planning services in 2024?*

Of those with exit planning certifications you can see that CBECs expect to earn more than each of the other designations with regards to their exit planning offerings. There are 22% of CBECs that expect to earn over \$250,000 from their exit planning work compared to 15% for the CEPA and 9% for the CExP.

| Breakdown by Certification | CEPA | CExP | CBEC | NONE | OTHER |
|----------------------------|------|------|------|------|-------|
| Do not charge | 22% | 3% | 0% | 11% | 11% |
| Less than \$25,000 | 16% | 14% | 11% | 24% | 9% |
| \$25,000 to \$50,000 | 25% | 19% | 15% | 26% | 34% |
| \$50,000 to \$100,000 | 15% | 27% | 30% | 19% | 9% |
| \$100,000 to \$250,000 | 15% | 30% | 22% | 10% | 17% |
| Over \$250,000 | 15% | 9% | 22% | 10% | 20% |

- Question 23: *What is the typical cost of your initial or Phase One planning engagement with a client?*

There are no CBEC advisors who are giving away exit planning services for free, as opposed to 32% of CEPAs and 8% of CExPs who do not. Conversely, CBEC advisors dominate the categories of charging \$10,000-\$25,000 for a plan.

| Breakdown by Certification | CEPA | CExP | CBEC | NONE | OTHER |
|----------------------------|------|------|------|------|-------|
| Do not charge | 32% | 8% | 0% | 23% | 9% |
| Less than \$2,000 | 6% | 0% | 4% | 10% | 11% |
| \$2,000 to \$5,000 | 21% | 24% | 11% | 32% | 57% |
| \$5,000 to \$10,000 | 22% | 41% | 26% | 19% | 9% |
| \$10,000 to \$15,000 | 8% | 16% | 33% | 7% | 14% |
